Johnny

123 Main St

Anytown, USA

email: johndoe@email.com

phone: (123) 456-7890

Objective:

To obtain a position in data analysis where I can utilize my skills in Python and SQL to analyze complex data sets and provide insights to drive business decisions.

Education:

Bachelor of Science in Mathematics, XYZ University, Anytown, USA (2015-2019)

Skills:

Proficient in Python and SQL for data analysis

Experience with data visualization tools such as Tableau and Power BI

Strong understanding of statistical concepts and data modeling techniques

Familiarity with machine learning algorithms and data mining techniques

Experience:

Data Analyst, ABC Company, Anytown, USA (2019-present)

Collect and analyze large data sets using Python and SQL

Develop and implement data visualization tools to communicate insights to stakeholders

Collaborate with cross-functional teams to identify opportunities for process improvement and drive business decisions

Utilize statistical modeling techniques to forecast future trends and identify areas for optimization

Intern, DEF Corporation, Anytown, USA (Summer 2018)

Assisted with data collection and analysis for a customer satisfaction survey using SQL

Developed and presented visualizations of survey results to senior management

Conducted statistical analysis to identify significant trends and correlations in the data

Certifications:

Certified Data Analyst, XYZ Certification Program (2019)

Python for Data Science, Coursera (2018)
